Ashutosh **Ojha**

@ ojhaaashutosh1005@gmail.com Github LinkedIn

Education

May 2027 | **Indian Institute of Technology (ISM) Dhanbad** — **Dhanbad, India**
Aug 2022 | Integrated M.Tech. in Mathematics & Computing
Coursework: Linear Algebra, Probability & Statistics, Optimization, Numerical Analysis, Data Structures & Algorithms, Design & Analysis of Algorithms, Machine Learning, Deep Learning, Natural Language Processing, Operating Systems

Experience

Present / **Jun 2026** | **Amazon Lab126** — **Bangalore, India**
Research Intern
› Researching automated discovery of neural network compression schedules, jointly searching which subnetwork to retain, which dimensions to prune or compress, by how much, and when to interleave recovery training, with the goal of finding efficient compression trajectories that preserve model quality.

Jun 2026 / **Feb 2026** | **Adobe MDSR** [🔗] — **Noida, India**
Research Intern
› Built a self-improving agentic framework that leverages the web for both facts and search strategies: +25.6% (sales) and +36.5% (legal) over ReAct baselines.

Aug 2025 / **May 2025** | **IBM Research** [🔗] — **Bangalore, India**
Research Intern
› Built a semi-automated pipeline using multi-LLM disagreement to build an 86-node taxonomy of developer queries from 3,052 interactions; 91.28% average score, best among prior methods.

Nov 2025 / **May 2025** | **Google Summer of Code 2025 | ML4SCI** [🌐] [🔗] — **Remote**
Open Source Contributor
› Extended *PINNs* to real strong-lensing observations by improving high-frequency information learning.

Apr 2025 / **Jan 2025** | **National University of Singapore** — **Remote**
Research Intern | Supervisor: Prof. Dianbo Liu
› Worked on improving LLM-driven hypothesis generation and experimental design for the *AI Scientist*.

Sep 2024 / **May 2024** | **Google Summer of Code 2024 | ML4SCI** [🌐] [🔗] — **Remote**
Open Source Contributor
› Developed PINNs for dark matter morphology classification via strong gravitational lensing, improving micro-F1 ($0.94 \rightarrow 0.99$) and ROC-AUC ($0.96 \rightarrow 0.99$) while reducing model size by 50%.

Publications

C=Conference, S=In Submission, W=Workshop

Selected Honours and Awards

Open Source Contributor | Google Summer of Code 2024, 2025 — ML4SCI Selected among 1,140 contributors globally.

Best Paper Award | IBM Research Internship Symposium, 2025 [🔗]

Gold Medal | Kaggle CSIRO – Image2Biomass Prediction [🔗]

National Finalist | Amazon ML Challenge, 2024 [🔗] Nationwide machine learning hackathon hosted by Amazon.

Top 1% of ∼1M candidates | JEE Advanced, 2022 National entrance examination for the Indian Institutes of Technology.
